

Dear new guests, welcome in the Camping Le Luberon! Because we agree with it, we are part of the “Camping Qualité” charter which obliges us to respect some criteria. In order to satisfy you, we particularly insist on the following points: quietness, security, hygiene and homelike atmosphere.

Concerning the quietness

We put forward the quietness, the sweetness of life and the peacefulness of everybody. In this aim, some basic rules:

- **We ask for the quiet from 10.30pm in the campsite.**
- The motorized traffic is strictly forbidden in the campsite between 22.30pm and 7.30am. The parking outside is at disposal for those who wish to come back late or to leave early.
- The water in the showers is only warm from 7am and 10.30pm.
- We are organizing one or two evenings with a special entertainment every week, they all end at 12pm. In general, no nightclub on the campsite, the region offers other possibilities (village’s balls ...) for those who want.
- The parents are liable for the behaviour and the noise of their children, we ask them to respect these rules. The games area is reserved for children between 2 and 8 and is closed at 7.30pm.

Concerning the security

- **The barbecues available in the campsite are the only ones allowed.** They are only to be used with wood coal and stay in charge of those using them. A fire-extinguisher is near of each. Barbecues functioning with gas are tolerated. All others are forbidden.
- **Dogs must be kept attached on a leash.** A special place is reserved for them.
- **Clothesline are forbidden** from trees (even high enough or between pickets), they are real traps for people, especially in case of emergency. Furthermore, they damage the trees. We lend drying rack (called Tancarville in French) to those who wish.
- The visitors, who don’t come at the reception to give their identity, will be driven back. **DO NOT OPEN TO STRANGERS WITH YOU BARRIER’S CARD.** For obvious reasons of security (theft, vandalism...), we want to control the entrances. In your own interest, help us and report to us every unusual movement. Thanks in advance.
- In case of rain, don’t dig around your tent: it would cost €100 to make the place back for the next people.

Concerning the hygiene

- In the sanitary, please, leave the place as clean as you found it, in order to respect the next person coming (**go with you little children.**) Scrappers are available.
- **Bins are outside, near the entrance.** The ones with a yellow cover are reserved for some kind of trashes (see information on them) Glass bins are on the road of Apt (100 meters).
- **Ashtrays are placed in the campsite. They are only for your fag-ends.**

Concerning the swimming-pools

- Schedule of the swimming-pool: 10.30 am - 19.pm. **Caution: in July and August, on the Saturday, the swimming-pool is only open from 2 until 7.pm because of the cleaning and the change of water.**
- In the swimming-pools, as everywhere in France, **swimming knickers are not allowed and all the shoes must stay outside.**
- Minor children (under 18) must be watched by their parents.
- For hygiene reasons, the shower is compulsory for everybody.
- Dives and leap in the water are not allowed, apart during the organised games, they disturb people who are swimming and can originate serious injuries. Balls are forbidden, except those lent by the campsite.
- Visiting people are not allowed to go to the swimming-pools, even invited by clients.

Concerning the environment

- Don’t waste the water. It is becoming rare and expensive and contributes to increase the price. In the shower, stay only the necessary time to wash yourself.
- Please be careful of the cleanliness of your place.

Obviously, everybody is free not to accept this and to leave, there are campsites for all tastes. Don’t forget: freedom stops where other’s freedom begins!

Welcome and have a good rest at “Le Luberon”
